IV — INITIAL CONTACTS

NPCs the agents are aware of at case start — names, roles, and what the Covenant knows about each.

NAME	ROLE / AFFILIATION	KNOWN INFORMATION
Cardinal Enrico Sabbatini	Contracting authority — Congregation for the Doctrine of the Faith	Signed the emergency requisition. Your point of authority for the case; treats it as a diplomatic incident, not an occult one.
Sister Claudia Vane	Ecclesiastical liaison	Must accompany all inquiries on church property. Holds diplomatic transit papers, pontifical seals, and local banking clearances.
Father Ghiberti	Curial archivist — Subterranean Vault IX	Nervous, precise. Knows the vault inventory and its custodial history better than anyone alive.
Vatican Gendarme Duty Officer	Campo Santo Teutonico gate detail	Controls access to the German Cemetery entrance and logs every descent to the vault level.
Covenant Logistics Officer	Recovery Division — Region 04 desk	Your supply line for field gear, vehicles, and safehouses across the Italian-Swiss corridor.
Wayfinder Remote-Sensing Analyst	Covenant HQ — monitoring wing	Holds the last stable readings from Vault IX; can task follow-up analysis through a request packet.

V — STARTING LEADS

Vault IX — the Campo Santo Teutonico entrance beneath St. Peter's. **Monsignor Corvi's private quarters** — the Palazzo del Sant'Uffizio, where the Prefect of the Secret Archives lived and worked. A 16mm surveillance reel from the Porta Sant'Anna gate may exist if anyone thinks to ask the Swiss Guard.

VI — OPERATIONAL PARAMETERS

TIMELINE PRESSURE

Secular authorities have not been alerted. The Covenant has a narrow operational window before Italian Carabinieri and Swiss border guards detect irregular cross-border travel.

CONSTRAINTS

- Sister Claudia Vane must accompany the field cell during all inquiries conducted within church properties and ecclesiastical jurisdictions.
- The attaché must remain sealed — no field testing, no opening, under pontifical treaty.
- Custody of the attaché remands to Church authorities immediately upon recovery.
- No secular law enforcement, international media, or hostile criminal syndicates may obtain custody of the container.
